

COGNITIVE NEEDS PROGRAM

At Cedar Creek Lodge, we are proud to serve adults with a wide range of disabilities and cognitive needs. Through the Cognitive Needs Program, our community provides progressive life assistance to adults with intellectual and developmental disabilities, as well as acquired brain injuries so they can best maximize their abilities while maintaining independence in the least restrictive environment. Our community's intentional approach allows us to provide each resident with meaning, purpose, and a community of friends.

Whether your loved one is leaving home for the first time or has lived in other care settings, our residents find their life at Cedar Creek Lodge filled with opportunities for growth, leisure and social activities. Our welcoming home environment allows for supportive care, as well as a variety of social, emotional, and educational activities numerous times each day. Everything is created around the needs of our residents and are updated regularly to meet their changing interests and needs.

Our goal is to create a safe, active, and healthy environment for our residents which is full of engagement and family involvement. We are committed to providing a beautiful space for our residents to thrive - to make friends, work, play, volunteer and enjoy life. Our communities offer vibrant and lively atmospheres filled with natural and ambient light.

In addition to our cognitive support, we provide three nutritious meals a day, housekeeping, transportation to outings, doctor's appointments, and laundry services.

Why choose our Cognitive needs program?

- Our community is equipped with 24-hour staff for supervision and assistance with daily living as well as life-enriching activities.
- Residents have ample opportunities to socialize, explore, and engage. From on-campus programming to off-campus activities and employment opportunities in the community, there is always plenty to do.
- Spacious and private apartments are available for residents to live independently within the community while still receiving assistance services as needed.

We understand that it can be a challenge knowing how to help your loved one take the next step in life. That is why we have built a caring community where adults with intellectual and developmental disabilities can realize their fullest potential.
